REFLECTIONS

We owe to many our thanks for
helping us through the years,
For teaching us to smile, for
wiping away the tears.
We thank our teachers
For all the years we needed to
find direction.
We thank our parents,
For all the time we sought
to find love and correction.
We thank our friends for all the
joy, tears, and pain we've gone
through together
For our memories we wish to keep
and for every endeavor,
For the times at Methuen High,
the most important years of our lives,
the laughter and the sorrow.
We wish to remember these times,
yet look forward to tomorrow.

NOTRE DAME LEADERSHIP CONFERENCE

The leadership conference at University of Notre Dame turned out to be an outstanding learning experience. Craig Dufton, Jean Garand, Steve Baddour, and Ed Higginbottom were four out of seven students representing Massachusetts. They flew into Indiana on November 14, and returned home on November 17. The conference was an excellent learning experience, for they learned the basic principles about becoming leaders. The money used to pay for the trip was raised by the four boys and Miss Kevhas, who was a great supporter for the boys.

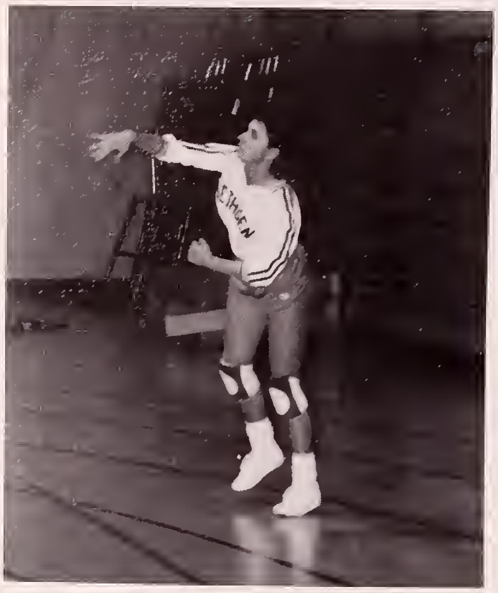
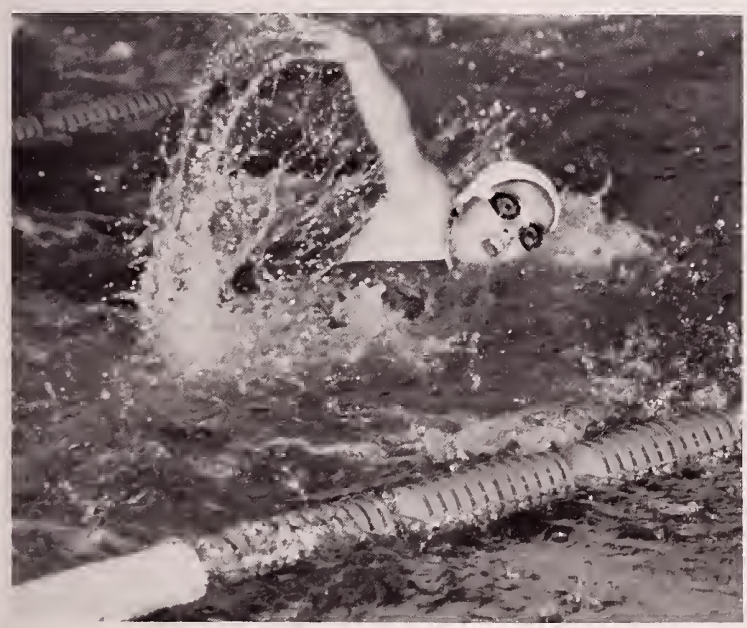
VOLLEYBALL



The Girls' Volleyball team had a record of 7 wins and 8 losses. It was a rebuilding year and next year they should have a strong team height wise, though they will lack experience. The Captains were Shelly Tamis, Trish Merrill, Joann Lever, and Cindi Sangueldolce. The rest of the seniors were Angela Tasca, and Gail Manning.

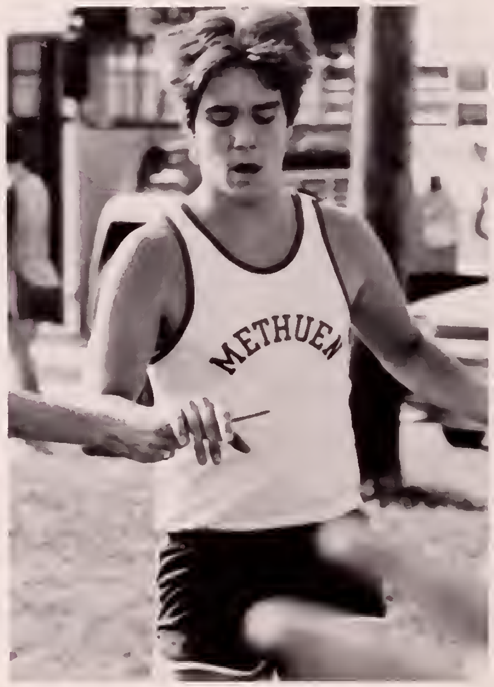
SWIMMING



The 85-86 Girls' Swim Team finished the season 4-5. The team was led by co-captains Johnna Knightly and Monica Soberon. It was a rebuilding year for the team, a majority of the swimmers were underclassmen. Ten girls participated in the North Sectionals. Wendy Gould, a junior, placed 6th in the diving competition. Wendy also placed 9th in diving in the State Meet. With the underclassmen getting stronger the team is looking towards a promising future.

BOYS' CROSS COUNTRY

The Boys' Cross-Country team did not do as well as expected due to many injuries but it did manage to have some bright points. Freshman Robbie Difalco went on after placing very well in the state meet to go on to the Cross-Country National Championships where he placed 14th.



GIRLS' CROSS COUNTRY

The Girls' Cross-Country team had a good season with young runners. Lisa Lanardo, Amy Woldaka and Julie Guilmette were the first three finishers in every meet. Also running well for the team Jennifer Wicks, Nancy Segal, Danielle Turgeon.

Parlex

ABOUT PARLEX

Parlex manufactures flexible printed circuits, flat laminated cable, rigid printed circuits, rigid multilayers, and custom thick film hybrids. Our products are used by many of the world's foremost manufacturers of electronic equipment for defense, communications, computers, transportations, and commercial uses.

Parlex is a name synonymous with inventiveness and quality. The company is a leader and an innovator in its specialty: interconnection and packaging of electronic systems.

Parlex Corporation was formed in May of 1970. The founders of the company initially rented office space at the Old Town Hall building in Methuen, Massachusetts. In October of that same year operations began at the present site, located at 145 Milk Street in Methuen. The original building was 16,000 square feet. Later in 1974, and again in 1979, additional space was constructed increasing the building area to 50,000 square feet. The most recent expansion, completed in June of 1982, gives Parlex a total of 120,000 square feet. This makes Parlex one of the largest manufacturers in its field.

Parlex products have been to the moon and beyond; they also fly in aircraft, travel in U.S. Army tanks, move rapidly in computer printers, and they are at the heart of many pacemakers.

WHY PORSCHE AND AUDI ARE SOLD UNDER ONE ROOF.

Simple logic.

Most discriminating car buyers want either a high performance sports car or a sophisticated luxury sedan. Under one roof, we offer superb choices in both categories.

Such as Audi's new aerodynamic 5000S, 5000S Turbo and 5000S Wagon. The Porsche 928S, one of the fastest street-legal production cars in America. And the Porsche 944, 911 Carreras, the all-wheel drive Audi 4000 Quattro, the 4000S Sedan and the Coupe GT.

Porsches and Audis also share a roof because they share a heritage. Design and construction that are constantly advancing the art of German engineering. This expertise is exemplified by Porsche's consistent racing victories and Audi's 53 years of front-wheel drive experience.

And it's carried out with German thoroughness, precision and pride in workmanship.

These same characteristics apply to the "We Care" service we give to Porsche and Audi owners. Everything is state of the art. From a computerized parts-availability system to the newest electronic diagnostic machines.

Never before have such uncommon cars had so much in common. *That's* why they're sold under one roof.
